

Bug summary:

Crash on BMI Calculator

Observed Behavior (a description of what happened with the app):

App crashes when I try to calculate BMI.

Expected Behavior (a description of what you expected to happen):

I expected app to calculate BMI after I submit the form.

Steps to Reproduce (the steps to reproduce the problem):

1. Click Statistics tab
 2. Click BMI Calculator button
 3. Fill the form (or leave it blank) and click "Go"
