

Bug summary:

Balance sheet report gets duplicated

Observed Behavior (a description of what happened with the app):

I created a new sheet. For the first time, the balance sheet was correct. But after some other operation, the balance sheet got duplicated.

Expected Behavior (a description of what you expected to happen):

The balance sheet should not be duplicated. I expected that the report should show the same result as it showed the first time.

Steps to Reproduce (the steps to reproduce the problem):

1. Set up the account
 2. See the balance sheet
 3. Press any other button and then press the back button
