

Bug summary:

The App closed.

Observed Behavior (a description of what happened with the app):

The app closed when I clicked the "Add previous comment" option.

Expected Behavior (a description of what you expected to happen):

I wanted to add a previous comment to my weight information.

Steps to Reproduce (the steps to reproduce the problem):

1. click "set current weight in kg"
 2. add a Comment to the weight
 3. click "add previous comment"
