

Bug summary:

It says that the app has stopped. did not look like the expected video.

Observed Behavior (a description of what happened with the app):

I did what the video showed me to do, It did not generate anything. It says that the app has stopped that i need to open the app again. Did not look like the incorrect video either.

Expected Behavior (a description of what you expected to happen):

I think after following the steps, I should see a balance sheet.

Steps to Reproduce (the steps to reproduce the problem):

1. keep pressing next, and select the automatic for the page without any icons pre-selected. Press done, and allow what was asked.
 2. See the accounts and get the report from the left side bar.
 3. Go to sheet, and then go to settings.
-

Additional information:

I pressed the last option in settings for the first time, and the app told me it needs to restart. I reopened the app, and went to settings, and went back to the balance sheet. I got the balance sheet that looked like what it was in the correct video.,
