

**Bug summary:**

Delete Token Crashes App

---

**Observed Behavior (a description of what happened with the app):**

Attempting to delete a token causes the app to crash

---

**Expected Behavior (a description of what you expected to happen):**

Deleting a token should delete the token without exiting the app

---

**Steps to Reproduce (the steps to reproduce the problem):**

1. Create a new token with a random seed
  2. Click Delete Token
  3. Select the token made in step 1 and click delete
