

Bug summary:

Duplicated balance sheet will be shown on the screen after a series of options during setup

Observed Behavior (a description of what happened with the app):

After a series of clickings during setup (for the new users), the GUI shows a duplicated balance sheet.

Expected Behavior (a description of what you expected to happen):

The balance sheet should not be duplicated.

Steps to Reproduce (the steps to reproduce the problem):

1. Clicking the icon to start "Gnucash", and enter into the "Welcome" page.
 2. Clicking the "NEXT" button on the "Welcome" page.
 3. Choose the "Default Currency" as "USD", and then click the "NEXT" button.
 4. Select "Create default accounts" on the "Account Setup" page, and click the "NEXT" button.
 5. Select "Automatically send crash reports" and then click the "NEXT" button.
 6. Click the "DONE" button on the "Review" page, and then click "ALLOW" on a popped-up window.
 7. After returning to the "Accounts" page, click the "List Icon" (panel sider), and then click "Reports" on the "Book 1" page.
 8. click "SHEET" to show the balance sheet, and notice that right now it shows correctly (No duplicated items will be shown)
 9. Click the "List Icon" again to return to the previous page ("Book 1"), and click "Settings".
 10. Then click the "Back" button (left arrow) to return to the "Balance Sheet" page. Now, the duplicated balance items show up.
-

Additional information:

This bug existed in the setup phase, which means it might confuse new users. So, the priority is high to fix this bug.
