

Bug summary:

Task disappears after assigning time frame

Observed Behavior (a description of what happened with the app):

New task disappears after assigning it's task time

Expected Behavior (a description of what you expected to happen):

Task would remain visible with task time added

Steps to Reproduce (the steps to reproduce the problem):

1. Make new task
 2. Assign Task Time ranging from the current time to 24 in the future
 3. Return to task list
