

Bug summary:

The app closed

Observed Behavior (a description of what happened with the app):

The app closed while trying to delete a token.

Expected Behavior (a description of what you expected to happen):

I wanted to delete a token that I had created.

Steps to Reproduce (the steps to reproduce the problem):

1. Click "Add token".
 2. Write the name of the token, click "next", then chose "Generate random seed" and click "complete".
 3. Click "delete token".
